I am an ambitious front-end web developer with a passion for creating responsive, interactive and dynamic websites. I have a knack for detail and I am concise when it comes to coding and working with cross-functional departments.

PROFESSIONAL EXPERIENCE

Frontend Web Developer

DynamicWow Solutions | December 2023 - Present

- Code websites and mobile applications using React Native, React.js, and TypeScript.
- Design websites and mobile applications, ensuring both aesthetic appeal and user experience.

Internship/Training

YOUPRO CONTACT TRAINEE | August, 2023 - December 2023

- Engaged in an intensive upskilling program focused on software development.
- Acquired practical experience and comprehensive understanding of:
    - Programming languages: Java, Python
    - Frameworks: Laravel, Django
- Gained knowledge in utilizing MySQL databases.
- Applied newly acquired skills to contribute to projects, including enhancements to the YouPro website.

Volunteeering

CODING INSTRUCTOR, UNCOMMON.ORG| August, 2022 - NOVEMER 2023

- I participate in a Youth coding program within the Dzivarasekwa community teaching Scratch Coding in both primary and secondary schools.
- I also compile written reports on the coding sessions

EDUCATION

Bootcamp Trainee

August, 2022 - November 2023 | UNCOMMON.ORG

During my enrollment at UNCOMMON.ORG, I completed an intensive bootcamp program covering a range of topics including Web Design, Front-end web development, and Digital Marketing. Throughout the program, I focused my efforts on specializing in Front-end web development, honing my skills in HTML, CSS, JavaScript, and associated frameworks and libraries, including React.js. This comprehensive training provided me with a solid foundation in web development principles and practices, preparing me to effectively contribute to web projects and pursue opportunities in the field.

SKILLS

Technical Skills

- React.js
- React-Native.js
- JavaScript
- Django
- HTML, CSS, SASS
- Git
- knowledge of UI frameworks like Bootstrap.
- Figma
